

## Wave Heater WW 2000

Art.-No.: 23.384.20

Bar code: 4006825529845

Sales unit: 1 pc

The mobile heat-wave radiator WW 2000 does not warm up air dimensions, but warms up firm bodies in the area with the radiated warming waves. The heat waves make a comfortable heat feeling without overheating the room and without production of air turbulences. The waves convert approx. 90% of its energy in direct and long-waved heat rays and therefore it is very economical.

The heat-wave radiator is very silent and reaches the maximum heating radiation very fast. It does not disperse dust and is therefore very suitable for people with breathing difficulties, allergic persons and homes with children.

### Advantages compared to traditional electric heatings:

- Significant energy saving
- An additional moistening of the room air because of the heating is not necessary
- The room temperature can be lowered by almost 2 degrees and retain the same feeling of comfortable warmth
- Universal applicable in living rooms
- Attaining very quickly the highest heat reflection (see graphic)

### Features:

- Mobile plastic-metal grid housing (1)
- 4 pcs castors (2)
- Operating display (3)
- Continuously thermostat regulator (4)
- Switch with two heat-settings (1000 W / 2000 W) (5)
- Tilting protection (switches off during tilting)
- Wall fastening possible

### Technical data:

- Mains: 230 V ~ 50 Hz
- Heating power: 2000 watts
- Room capacity max: 60 m<sup>3</sup>
- Mains cable: 3 x 1 mm<sup>2</sup> x 1.8 m
- Protection class: IP 24
- Unit weight: approx. 4.4 kg
- Unit dimensions: 690 x 200 x 475 mm
- Weight gros: approx. 4.7 kg
- Packing dimensions: 695 x 80 x 485 mm

### Heat reflection WW 2000:

1 Min.

10 Min.

20 Min.

### Heat reflection Oil radiator:
