DATA SHEET

Air Command
Rock your gaming world with Gyro Sensor

Issue September 2009

Pages 2

Play PC game with swing and twist. With the 3-axis Gyro Sensor, Air Command brings you a wireless motion-based game controller and 3D mouse functionality. Once you plug in the RF receiver USB, you are ready to rock with more than 300 PC games. Creative and intuitive graphics users' interface guides you easily through all the PC games, and built-in Gyro Sensor helps you sitting comfortably on the sofa with motion-triggered Media Center Remote Control. You could swing, twist, shake to change the music, video or flipping through the TV channels. With the patented "Multi Game Mode Design" Air Command can turn itself into "Gun Mode" (shooting game optimized), "Aviation Mode" (flight simulator game optimized), "Race Mode" (car racing game optimized) and "Sports Mode" (tennis and golf games optimized).

Features
- 3 Axis Gyro Sensor for 1:1 real-time game response
- Multi Game Mode Design
  - Sports Mode
  - Gun Mode
  - Race Mode
  - Aviation Mode

Connection
- Wireless USB RF receiver

Usability
- Creative and Intuitive Users' Interface
- Plug & Play
- Support PC Games, No Game Console Anymore
- Fully compliant with Win XP, MCE, Vista and Windows 7

Functionality

- Experience the true-to-life motion playing with 3-axis accelerator and 2-axis gyroscope sensor

- No need to install or configure software for connecting the controller to the USB receiver.
- 2.4 GHz wireless USB connects you up to 10 m range

Technical specifications

USB Dongle
- USB 2.0
- RF 2.4 GHz

Controller
- RF 2.4 GHz
- G Sensor x 2 units (2 axis)
- Gyro Sensor x 1 unit (3 axis)
- MCU 8bit x 3 units
- AA Battery x 2 units

Physical specifications

Dimensions:

Controller (H x W x D)	210 x 32 x 35 mm
USB Dongle (H x W x D)	70 x 195 x 10 mm

Weight:

Controller	160 g
USB Dongle	5 g

Norms, standards, compliances

CE
FCC

System Requirements

- For Game Playing:
  Intel® Pentium® 4 2.4 GHz (Hyper-Threading)
  AMD Athlon™ XP 2400+
  Intel® Pentium® Mobile 1.3 GHz
- Min. VGA card supports DirectX 9.0c
- Min. 2 GB RAM
- Min. 10 GB available free disk space
- Free USB slot
- Sound Card
- Microsoft Windows 7 / XP / XP MCE 2005 / Vista

Package content

- Air Command
- USB Dongle
- Wrist Strap
- Installation CD
- CyWee Tennis Game CD
- Quick Installation Guide
- Safety booklet
- Helpdesk flyer
