

Portable & flexible – the power saw for all situations!

The UZS 18/250 radial pull saw has been equipped with a powerful motor for easy cutting and moulding of long, unwieldy and hard materials.

The multipurpose stopper and the precise guidance help to avoid cants and allow an exact repeat accuracy.

Special features of the UZS 18/250: saw table made of anodised aluminium, precise setting of cutting height, twin sawdust extraction and a magnifying glass to support reading of the scales. Due to the practical pull appliance the saw is ideally suitable for trimming of panels. Thanks to its compact design the saw can be easily transported anywhere it is needed.
